Training Pastors - Amplifying Ministry

GLOBAL PARTNERS / JIBACAM

The *Facultad Teológica Wesleyana-Cuba* was established to train pastors in June 2010. The first graduation took place four years later in June 2014 with 18 graduates. The Church in Cuba is amplifying ministry, preparing pastors for *The Harvest*.

In April of this year, 30 students registered for two intensive ministerial courses. The location that had been used in the past was too small to accommodate the group. However, the Church/Ministry Center that is under construction in the town of Camajuani was used even though the floor is sand/gravel and the concrete walls have not been stuccoed yet. Clara and I visited Cuba just days after the classes were offered. As we traveled to various congregations, many of the students shared with us (without asking) their joy of finally having the opportunity to receive training in order to serve the Lord in ministry! Rev. Caridad (Cary) Rodriguez de Cárdenas, (pictured on the right, along with her husband Rev. Nehemias Cárdenas), serves as the Director of The *Facultad Teológica Wesleyana-Cuba*.
